

**COMPACT INDUSTRIAL WASTEWATER
TREATMENT PLANT
ABC PC0.5**

THE MOST ECONOMIC SOLUTION ON THE MARKET

TREATMENT COMBINATION :

- **Chemical**
- **Oxidation or Membrane**

Technical characteristics :

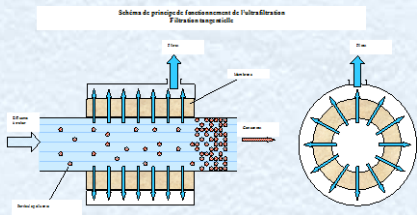

- Metal pollution reduction : 99.5 %
- COD reduction : 50-80 %
- Treatment capacity : 1'500 liters/day

Foot print : width : 2 meters . length : 3 meters . height : 2.30 meters

ABC SwissTech is based in La Chaux-de-Fonds (Switzerland), capital of the swiss micromechanics area. We are specialized in the field of surface treatment (particularly surface finishing by deburring and polishing) and wastewater treatment

ABC SWISSTECH has developed simple and compact solutions allowing to reduce significantly the time necessary to manage the plant. We propose technical solutions using the best adapted technologies in order to reach the objectives (physico-chemical, membranes separation, electrocoagulation, reverse osmosis, evaporation...)

We have also the possibility to offer you a complete range of effluent treatment or recycling solutions, from the most economic to the most complex.
